

3rd Annual BPM Remix Competition

Here's what you can win....

THE WINNING REMIX – valued @ R 60,000

You will receive a full setup for the studio to create more killer tracks and a full DJ setup to play them out.

bpm
Remixed

Studio Setup:

Steinberg Cubase 5 – Cubase 5 is an advanced music production system with stunning innovations and additional enhancements that boost productivity and performance.

SE Electronics sE2200T Microphone - The sE2200T is the long awaited tube version of the highly acclaimed and multiple award-winning sE2200a.

SE Electronics Reflexion Filter - The Reflexion Filter is basically a portable device for recording live sound sources with reduced room ambience.

PreSonus FireStudio Mobile Portable FireWire Recording System - Finally, a new-generation, studio-quality FireWire interface that you can use anywhere! The PreSonus FireStudio™ Mobile combines the superior analog-circuit design and advanced platform technology of the acclaimed FireStudio rack-mount interfaces with the ability to run on bus power in field applications.

Native Instruments Maschine - The software is a plug-in that can be used in virtually any Digital Audio Workstation, and using the Maschine hardware is like using an MPC with all the power and flexibility of your software.

Native Instruments Complete 7 - Combines 24 groundbreaking and multi-award-winning samplers, synths, guitar/bass amps, instruments and creative effects. Includes 90 GB of sample libraries with more than 10,000 production-ready sounds for all styles and genres.

DJ Setup:

x 2

Denon DN-S1200 Media Player (a set) - 2009 winner of djmag.com's Best MP3 Player Under £400, Denon's smallest CD/USB media player yet, the DN-S1200 packs in high-end features not found in much larger, more expensive units.

Denon DN-X1100 - the DN-X1100 is a full featured 4-channel matrix mixer that further cements Denon's position as the industry leader in manufacturing DJ gear for the working professional.

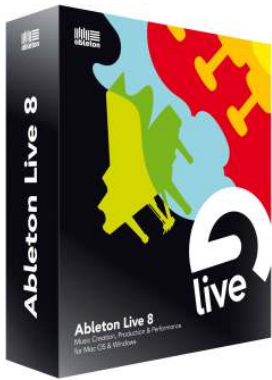

Denon DN-HP500 Headphones – The DN-HP500 headphones produce impeccably clean and vibrant audio while withstanding the high-volume demands of today's DJs; all in a stylish and affordable package.

FIRST RUNNER-UP – valued @ R 21,000

As the first runner up you will receive a unique blend of software and hardware for production, live performance and digital DJ'ing.

**COMPETITION CLOSES:
31st January 2011**

Ableton Live 8 - Ableton Live is about making music; for composition, song-writing, recording, production, remixing and live performance.

Akai APC40 – the APC40 is a unique piece of hardware that has been specially designed to control Ableton Live. With a massive selection of pads, rotaries and sliders you have complete control over Ableton.

Serato Scratch Live & Rane SL3 + Serato - Scratch Live combined with Rane hardware is the ultimate solution for professional DJs to use their digital music collection on the road and includes their new Bridge technology, a seamless interface with Ableton Live 8.

Reloop RHP-10 Ceramic Mint Headphones – Haute Couture for DJs: The RHP-10 embodies individuality and character. Each pair of headphones is unique - the engraved serial number on the aluminium plate documents this matchlessness.

JTS Professional Microphone SX8S – The SX8S re-enhances overall performance and provides extended frequency response and dynamic range for cleaner and smoother sound. Ideal for lead vocal.

SECOND RUNNER-UP – valued @ R 12,500

As the second runner up you receive a professional studio DAW and a standard studio CD DJ & mixer plus a handy projector for getting your party on.

Steinberg Cubase 5 Studio - Based on the same core technologies as Steinberg's Cubase 5 Advanced Music Production System, the streamlined Cubase Studio 5 offers professional tools for composition, recording, editing, and mixing.

Reloop RMP1660B CD Player – The Reloop RMP-1660 b provides the DJ with a complete performance package for creative digital mixing. Thanks to its MP3 compatibility it can be used for regular CDs as well as in-house productions or ready-made mixdowns.

Reloop Access 2 USB Mixer - The Reloop Access.2 USB features two full duplex USB ports that are directly selectable on the surface. This way the mix emitted by one port can be recorded directly while at the same time feeding an audio signal to the mixer.

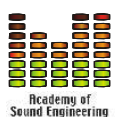

Scannic Water Projector 120 - The Scannic water projector is an innovative lighting effect that generates a soothing atmosphere. Due to a novel lens technology moving water is simulated very realistically.
